Repels Moisture and Maintains Color Integrity

Aura Bath & Spa has been specially-formulated for optimum performance in high humidity environments. Long, hot showers and modern bathroom features, such as steam and multiple shower heads, can create high moisture surroundings. Aura Bath & Spa was developed to address these humid environments with a paint that repels moisture and maintains color integrity. Durable Aura Bath & Spa provides a protective coating that withstands repeated washings.

The Green Promise[®] designation is Benjamin Moore's assurance that its eco-conscious paints meet and exceed the strictest US industry standards, while also delivering the premium levels of performance you expect from Benjamin Moore. Benjamin Moore has applied the toughest standards to create a "Green Promise" designation so that you know the paint that's contained within goes above and beyond standard green expectations.
